Pagrindinės savybės

- ✓ High Speed HDMI Cable with Ethernet
- ✓ Gold plated HDMI connector
- ✓ active cable with build-in signal amplifier for long distances
- ✓ Three-layer, high-density shielding or quality protection
- ✓ Twisted pair construction
- ✓ Transfer high-definition video signal and pure Audio signal
- ✓ Good conductivity and wonderful signal transmission
- ✓ Suppress EMI/RF interference, make the image vivid
- ✓ HDMI Ethernet Channel: Adds high-speed networking to an HDMI link, allowing users to take full advantage of their IP-enabled devices without separate Ethernet cable.
- ✓ Audio Return Channel: Allows an HDMI-connected TV with a built-in tuner to send audio data upstream to a surround audio system, eliminating the Need for a separate audio cable.

Aprašymas

InLine® HDMI cable High Speed HDMI Cable with Ethernet, M/M, black, golden contacts HDMI 1.4:

This InLine HDMI cable with specification 1.4 supports 3D content and also has an Ethernet channel and an audio return channel. The audio return channel (ARC) transmits audio signals from the TV to the AV receiver, for example. This allows a speaker system to be integrated into the multimedia setup without additional cables. The Ethernet channel enables network connections between HDMI devices. Significantly higher resolutions than Full HD up to 4kx2k (@30Hz) are supported up to a distance of 5m. (only applies to the flat cable version).

If your 4k HDMI devices or their connections only support a bandwidth of 4k@30Hz, the InLine HDMI cable is suitable for connecting these components. Especially for 4k applications with a low refresh rate such as normal film playback, image editing, presentations and general work on the computer, this bandwidth is sufficient.

Home cinema: The cable is particularly suitable for connecting HDMI components to a 3D home cinema system or AV receiver. Enjoy clear sound with low latency and high resolutions in 4k@30Hz or HD quality.

Streaming:If you stream content from streaming services such as Netflix, Amazon Prime Video or Disney+ in Full HD or watch it on a Full HD TV, you can use this cable to connect streaming players such as Roku, Amazon Fire TV or Chromecast.

Gaming consoles:For older gaming consoles with a resolution of only 1080p, this cable supports a smoother gaming experience due to the higher frame rate of 60 frames per second. Examples of older games consoles include Playstation 3, Playstation 4, Xbox 360, Nintendo Switch and Wii U.

Playback devices:Full HD and / or 3D televisions, projectors or monitors as well as corresponding first-generation 4k devices (4k@30Hz).

Other output devices:Full HD or 4k@30Hz notebooks, PCs, AV receivers, Blu-ray players and set-top boxes for cable TV or satellite services.

Gold-plated contacts

The gold-plated plugs improve the conductivity, durability and corrosion resistance of the InLine HDMI cable. The risk of oxidation or corrosion is significantly reduced. This increases the long-term reliability of the connection, e.g. even in environments with higher humidity. Gold-plated contacts adapt better to the connections and are less susceptible to abrasion and damage when plugging and unplugging. In addition, the higher conductivity can improve signal transmission and therefore picture and sound quality, especially over longer cable runs.

Techninė specifikacija

Features	
Cable length	5 m
Connector 1	HDMI Type A (Standard)
Connector 2	HDMI Type A (Standard)
Product colour	Black
Connector contacts plating	Gold
HDMI version	1.4
Supported graphics resolutions	4096 x 2160
Unidirectional	No
Maximum refresh rate	60 Hz
AWG wire size	28
Cable material	Copper
Connector gender	Male/Male
Weight & dimensions	
Weight	285 g
Package volume	1800 cm ³
Packaging data	
Package width	200 mm
Package depth	245 mm
Package height	36 mm
Package weight	298 g
