- ✓ Outlets in 45° position
- ✓ Sockets with safety shutter
- ✓ IP20 for protection against contact with fingers or similar objects
- ✓ With black/white textile cable
- ✓ Angled safety plug, flat design

Aprašymas

Product information "Socket outlet 3-way, 3x CEE 7/3, textile cable, black" from LogiLink

Whether as an extension or as an option to be able to connect even more devices for example to a single wall outlet, LogiLink's socket outlet LPS261 enables you to do both. The 3 safety sockets are arranged at an angle of 45°, making it easier to plug in angled plugs. In addition, the LPS261 has sockets with safety shutter and a black/white textile cable. Another special feature is the angled flat plug with earthing contact on the connecting cable, because it fits ideally behind furniture or in other narrow places where normal plugs are just too bulky. With the multiple power strip from LogiLink you gain a practical helper for every room, because due to its cable length of 1.5m you now have even more freedom when placing your devices, whether it is at home or in the office.

Multiple outlets with braided design for your home appliances through a single power strip.

Safe and stylish perfect for home or office use.

Techninė specifikacija

Features	
Cable length	1.5 m
Placement supported	Indoor
Safety shutter	Yes
International Protection (IP) code	IP20
Core size	1.5 mm ²
