Aprašymas

Combined connection solution with control:Two Euro sockets and an earthing contact socket enable the parallel connection of several device types - centrally switchable.

Integrated switch for more control:Switch the power supply on and off selectively - ideal for energy-efficient use and temporary setups.

Increased protection against accidental contact:For safe use in technical rooms, offices or educational facilities.

High load capacity up to 16 A:Also suitable for powerful devices such as printers, monitors or presentation technology.

Space-saving, practical design:Compact design allows use in confined areas and behind furniture.The InLine® socket outlet adapter with earthing contact plug, two Euro sockets and one earthing contact socket offers a sophisticated combination of versatility and control. The integrated switch allows connected devices to be specifically disconnected from the power supply - ideal for professional environments with changing application scenarios. The high load capacity of up to 16 A / 250 V makes it a reliable solution even for demanding office and technical devices. With its increased protection against accidental contact, the adapter is ideal for use in safety-relevant environments such as training rooms, workshops or administrative areas. Thanks to its compact shape and discreet white colour, it can be easily integrated into any infrastructure.

Connection: earthing contact plug to 2x Euro socket + 1x earthing contact socket

Max. Current: 16 A / 250 V

Touch protection: Increased protection

Colour: White

Switch: Yes

Techninė specifikacija

Features	
On/off switch	Yes
Product colour	White
Weight & dimensions	
Width	66 mm
Depth	88 mm
Height	80 mm
Weight	79 g
Technical details	
Compliance certificates	TÜV mark
Other features	
Dimensions (WxDxH)	66 x 88 x 80 mm
Packaging data	
Package type	Hanging box
Package width	83 mm
Package depth	145 mm
Package height	71 mm
Package volume	900 cm³
Package weight	102 g
