Aprašymas

LEPRO 330041 Camping Lamp (1000 lm, 15,000 mAh)

The LEPRO 330041 is a retro-style camping lamp that offers smooth adjustment of brightness and color temperature from warm 2500K light to cool white 5000K, making it ideal both as mood lighting for evening relaxation and as a powerful light source with a brightness of up to 1000 lm. The built-in 15,000 mAh battery provides up to 160 hours of runtime, and convenient USB-C charging allows you to quickly prepare the lamp for your next trip, camping trip, or emergency situation at home.

Smooth light adjustment

The lamp is equipped with a rotary switch that allows for stepless adjustment of brightness and color temperature. Warm light with a brightness of 10 to 140 lm creates a pleasant atmosphere during evening relaxation, while cool light reaching up to 1,000 lm is perfect for camping, preparing meals, or illuminating larger spaces. Intuitive operation allows you to instantly adjust the lighting to your current needs.

High-capacity battery and power bank function

The 15,000 mAh lithium-ion battery ensures long runtime, making the lamp ideal for multi-day trips and emergency power outages. It can operate for up to 160 hours in warm light mode and up to 36 hours in cool light mode. Recharging takes about 4-5 hours using the fast charger, and the indicator makes it easy to monitor the battery level. A green LED indicates a charge level between 15% and 100%, a red LED between 5% and 15%, and a flashing red LED indicates that charging is needed. An additional advantage is the USB-A port, which allows the lamp to be used as a power bank to charge mobile devices.

Robust construction ready for outdoor conditions

The LEPRO 330041 model is made of durable materials resistant to heavy use. The stainless steel housing with a protective coating effectively protects against corrosion, and the tempered glass increases resistance to damage. The design is complemented by a sturdy handle for carrying and hanging the lamp. The device is splash-resistant in accordance with IPX4 waterproofing, making it suitable for camping, picnics, and outdoor use.

even in less favorable weather.

Retro-style design

The lamp stands out with its elegant design inspired by classic camping lamps in antique bronze. This allows it to serve as decorative lighting in your home, tent, gazebo, or during outdoor events with a vintage vibe. Its compact dimensions (200 × 128 mm) mean it fits easily into a backpack or luggage.

Included:

- Camping lamp
- USB-C cable

Manufacturer	LEPRO
Model	330041
Power	15 W
Brightness	Up to 1000 lm
Color temperature	2500K - 5000K
Battery capacity	15,000 mAh
Battery type	Li-ion 21700 3.6V
Energy capacity	54 Wh
Run time - warm light	45-160 h
Run time - cool light	18-36 h
Charging time	4-5 h
Water resistance rating	IPX4
Charging port	USB-C
Output port	USB-A
Input voltage	5 V 3 A / 9 V 2 A / 12 V 1.5 A
Output voltage	5 V 3 A / 9 V 2 A / 12 V 1.5 A
Housing material	Stainless steel, tempered glass, plastic
Dimensions	200 × 128 mm
Weight	895 g
