Pagrindinės savybės

- ✓ **WORKSTATION LOCKING KIT:** Theft-detering locking kit for K-slot-compatible laptops or desktop computers, docking stations, monitors, projectors, & other peripheral devices
- ✓ **SECURITY FEATURES:** Security kit includes three semi-permanent lock heads for peripherals, and one removable lock head; User-resettable 4-digit combination locks; Spacers of varying thicknesses (0.4/0.8/1.5mm) are included to provide a better device fit
- ✓ **EXTRA-LONG CABLE:** Extra-long 10ft (3m) security cable facilitates cable routing and desk organization; Avoid the hassle of having to rearrange setups because the cable is too short or cannot reach the security point
- ✓ **EXPANDABLE AND MODULAR:** Combine the computer and peripheral locking kit with the following accessories (sold separately) for further customization and compatibility: CONNLOCKPK10, CABLE-ORGANIZER-LOCK, and KSLTAD
- ✓ **DURABLE & VERSATILE:** Braided steel cable paired with zinc-alloy locking heads ensuring secure and long-lasting protection; Included hook & loop strap keeps portable notebook cable lock organized

Aprašymas

Deter theft of laptops, desktop computers, docking stations, or other K-slot compatible peripherals using this security cable lock

The Computer and Peripheral Locking Kit is a versatile solution to deter the theft of K-slot devices. Secure a workstation and up to three peripherals to a single anchor point. Eliminate the need to rearrange desk setups for secure device placement using the 3m (10ft) long cut-resistant steel cable.

Security Features:

Semi-Permanent Lock Heads

This desktop security kit includes three semi-permanent lock heads tailored to devices that don't require regular detachment, such as multi-monitor setups, docking stations, test equipment, and other peripherals.

Removable Combination Lock Heads

The combination K-slot lock enables quick removal, for devices that need to be removed on a regular basis (e.g., laptops, drives, and other portable devices) while the semi-permanent lock heads remain in place.

Safety lock kit is ideal for libraries, healthcare facilities, points of sale, retail stores, hot desk setups, classrooms, tradeshow, and other public spaces. Combine the kit with additional accessories (sold separately) to secure other peripherals such as video adapters (CONNLOCKPK10), mice and keyboards (CABLE-ORGANIZER-LOCK), tablets (KSLTAD), and additional K-slot devices (BRNCHLOCK).

Combination Lock

Set a personalized 4-digit combination code with 10,000 possible combinations for the single tether point and the removable locking head.

Widely Compatible

The versatile security lock is not limited to laptops/notebooks or desktops. Use this lock to secure K-slot compatible devices such as docking stations, monitors, printers, SFF computers, projectors, oscilloscopes, demo units, or other office and lab equipment. Spacers of varying thicknesses (0.4/0.8/1.5mm) are included to provide a better device fit.

Full-Motion Lock Design

The 0.7in (18.1 mm) diameter lock head features a design that allows the computer lock head to rotate 360°. This flexibility minimizes stress on the security slot and increases durability and usability.

Techninė specifikacija

Features	
Product colour	Black, Silver
Best uses	Laptop
Lock type	Combination lock

Cable lock slot type	Kensington
Material	Plastic, Steel
Anti-theft function	Yes
Weight & dimensions
