Aprašymas

The CROMO® Slim High Speed HDMI to Micro HDMI Cable with Ethernet is an affordable, high quality cable featuring gold plated contacts for better conductivity and resistance to corrosion and tarnishing.

This super thin and flexible HDMI cable has been specially designed for connection to devices in confined spaces or with restricted access to the HDMI ports. The slim form factor also reduces the weight of the cable by around 80% compared to the standard CROMO® cables. This makes the cables highly portable and ideal for use with smartphones, tablets, digital cameras, laptops etc. A tight bend radius and a slim profile also gives these cables the advantage in places where space is limited.

HDMI ATC (Authorised Test Centre) certified for High Speed Category 2 compliance.

Ethernet support allows compatible devices to connect to the internet

Please note:These cables are directional from Micro HDMI to HDMI
