Pagrindinės savybės

- ✓ Enjoy undisturbed ease of operation, without your AV devices being visible.
- ✓ With the exception of the tiny infrared receiver, the complete set can be placed completely out of sight.
- ✓ Very simple and quick installation due to innovative infrared technology (infrared blaster LED). Enables you to operate all AV equipment inside the same compartment.
- ✓ Works with virtually all brands and models and is suitable for new infrared code formats (such as RC-MM), which are used in many new HD devices and digital TV decoders.
- ✓ No power adapter needed.
- ✓ Operate the Apple TV that is mounted behind your TV.

Aprašymas

The IR 100 USB is a very compact infrared extender, which consists of only one transmitter and one receiver. The IR 100 USB is ideal to hide away your Apple TV behind your TV while it remains operable.

Techninė specifikacija
