Aprašymas

These LINDY power cables are perfect for use in professional areas (recording studios, light systems and also for event locations of any kind, etc.) – but you can also use them in private sections.

This angled IEC connector is ideally suited for small and narrow installations such as mounting racks with limited space at the back.

Due to the high temperature resistance from -10 to 70°C during operation, these cables can also be used in non air-conditioned areas.
