Aprašymas

If you combined an elephant, a cat, and a spiny anteater, you'd get...an Amargasaurus? This spiky longneck dinosaur is a real "pain in the neck" for predators. The only known skeleton of Amargasaurus was found in Argentina (probably because they had trouble getting flights). Recreate your favorite Jurassic dinosaur scenes with the Amargasaurus figure from schleich® DINOSAURS, suitable for kids ages 4+.

Imagine you're a scientist researching deep in the jungles of prehistoric Argentina. You and your fellow scientists spy a long-necked dinosaur with two rows of spikes along the sauropod's spine. What on earth are those spikes? You and your fellow dino researchers are baffled. Can you come up

with a theory? Your answer could shape the story of Amargasaurus for all of eternity. schleich® dinosaur toys introduce the limitless possibilities of storytelling and imaginative play. From fierce Velociraptor figurines and the popular brachiosaurus toy to our popular Large Dino Research Station, schleich® DINOSAURS let your stories run wild. Authentic dinosaur toys prowl with rich, accurate detail and texture, while full-featured dinosaur playsets bring action and learning to life. Our dino toy figurines love to crawl, fly and swim their way into stories featuring schleich® mythical creature toys, farm animal figurines and toy wild animals! schleich® dinosaur toys and playsets are built to last for generations. All our toys meet the highest national, international, and prehistoric safety standards.
