Aprašymas

Worldwide Travel Adapter

The Verbatim GaN III Universal Travel Adapter can be used in more than 180 countries – take it everywhere with you and never be out of power. This world-to-world multi plug will allow you to connect to any local power supply around the world and recharge your power-hungry devices, like laptops, smartphones, Bluetooth speakers, tablets, power banks, and more. Just push the sliders on the side of the multi plug to reveal the three most common international plugs - EU, UK, and US - and rotate the pins for sockets in Australia or China.

The Verbatim Travel Adapter uses latest GaN technology, a semiconductor material that can efficiently handle high voltage and high-frequency applications. It enables devices to be smaller, lighter, and more efficient compared to products using traditional silicon-based components.

Superfast 5-in-1 charging, up to 100W

The compact and powerful Verbatim GaN III Universal Travel Adapter allows five devices to be charged simultaneously through the AC power socket and the two USB-C and two USB-A ports.

The two USB-C ports support Power Delivery 3.0 (with PPS support) and Quick Charge 4+ output, up to 100W each, and the two USB-A ports support Quick Charge 3.0 output, up to 18W.

Stylish, Compact and Safe

Housed in an attractive black 3D design, the Universal Adapter is made with high quality fireproof polycarbonate material and is certified by CE, UKCA, FCC and ROHS.

It has safety shutters for child protection that can only be opened with force of more than 75N (7.5Kg) per hole, and its BS1362 compliant fuse (including a spare) gives you 100% peace of mind wherever you may go.
