Aprašymas

In Dino Temple Conquest, Flynn has to pass the dangerous dinos guarding the temple on his way to the treasure. The steps can be reassembled, so they are different every time. Along the way, Flynn has to solve lots of puzzles: Key parts are hidden in secret hiding places. When put together properly, he can use it to open the temple. Will he succeed?

Flynn is dying to get into the temple! There is a valuable treasure hidden in there. The problem is - the temple is being guarded by two dinos - the Monolophosaurus and the Postosuchus! The two carnivores follow him at every turn. Now he not only needs to find the right way, but also escape from the dinos. The temple complex is a real obstacle course. It looks different every time, because it can always be reassembled. Dangers lurk at every corner. Carefully, Flynn balances across the rotten suspension bridge. Done. The temple is right in front of him now. He is climbing the steps when suddenly they turn into a slide. Help! How can he get out of this room? When he finds the right combination of switches, the wall swivels and clears the way. That was hard! And now he still has to find all the key parts for the temple door in the secret hiding places. Before he finishes, he falls into a mesh trap. Who can help him out?
