Aprašymas

Through A Glass Brightly

There is no mystery without illumination; no function without form.
The prism-inspired, polyhedral perimeter of the FV270 mid-tower formed from tempered curved glass provides an unrivaled panoramic interior view of your build in full glory, while innovative angled cooling fan placements revolutionize airflow dynamics.
Facilitating backwards cable management and future-proofed for extreme builds with capacity to spare for bleeding-edge motherboards and GPUs, the FV270 is anything but another brick in the wall.

Breathe

Harmonizing form with function, the FV270’s polyhedral design sets a new standard for airflow dynamics. Placing cooling fans on angled faces ensure uninterrupted, focused streams and the lifted front accesses an additional axis of ventilation, allowing air intake from below.

Angled Cooling Fan Placements Focus Airflow in Uninterrupted,
Continuous Streams.

Prism of Light

The FV270 offers an unparalleled panoramic view of the interior with a tempered, curved glass perimeter. Unlike rectangular cases, this prism-inspired design eliminates obstructive straight edges and vastly increases transparency, amplifying both visibility and lighting brilliance.

Outside the Wall

Support for reverse cable management conceals cable clutter behind the reverse side of the motherboard, covered by a solid side of the FV270. The clean exterior lets your components shine without distraction – literally.

Tomorrow, Today

With broad compatibility for bleeding-edge E-ATX motherboards and accommodating GPUs of up to 420mm with rotatable brackets for horizontal/vertical orientation options, the FV270 is engineered for the gaming rigs of the future. Create without limit, build without constraints, and stay ready for the next gen of tech.

Security Detail

Strategically positioned and easily removable filters guard against dust infiltration and shields vital components. This comprehensive filtration prolongs the longevity of your hardware, minimizing maintenance efforts and preserving the pristine condition of your PC.
Quick Change
Tool-less bracket design streamlines setup: easily detachable top and bottom brackets lets you install or change without hassle and opens up interior space.

Full House

The FV270 can house up to 4 x 2.5” SSD drives and 2 x 3.5” HDD drives.

Peripheral Vision

The FV270 I/O panel includes 2 x USB 3.0 and 1 x USB-C ports.

Center Stage

An optional mounting platform – designed to showcase your prized collectibles within the panoramic interior – offers a dedicated space for hobby figurines, turning your PC into a personalized gallery.
