Pagrindinės savybės

- ✓ True Black Presentation - Creating Flawless levels of black
- ✓ HDR Technology - Optimised levels of Brightness and Contrasts
- ✓ Linear Greyscale Management - Realistic textures, volume, and continuous shadow details
- ✓ NQM AI Processor - Superior visual enhancement up to 4K

Aprašymas

Uncompromised visuals, now more accessible

The Wall is a pioneer, constantly opening new ways for unmatched visual statements. Leveraging Samsung's rich R&D heritage, it now offers a more business-focused solution while maintaining its signature picture quality. Introducing The Wall M series—designed to revolutionize the way you do

business.

True black presentation

Samsung The Wall M series displays deliver flawless black levels with enhanced details. A pristine black canvas draws you into a new dimension of immersion.

Unleashing the power of HDR

Go beyond the limits of conventional screens and discover the true beauty of visuals. With HDR10/10+ picture refinement technology, The Wall M series optimises brightness and contrast ratios, illuminating each scene to perfection.

Colors mapped to perfection

The Wall M series features 20bit processing to present precise color mapping with faultless accuracy. The deeper bit depth at low grayscale also elevates smooth, natural tones.

True, natural shadow details

Thanks to the advanced linear grayscale of The Wall M series, every scene come to life with rich texture, volume, and continuous shadows. The refined intricacies pulls you further into content, creating a deeper sense of engagement.

Instant AI optimization

Every second of content is instantly analyzed and optimized for perfect picture quality. The powerful NQM AI Processor delivers superior visuals in any size up to 4K resolution, enhancing contrast and removing noise.

Certified eye comfort for optimal viewing

The Wall M series is TUV Rheinland Eye Comfort certified, reducing blue light and flicker to minimize potential risks that could cause eye strain and ensure a more comfortable viewing experience.

Delivering efficiency and sustainability on standby

When the connected S-Box or input signal is turned off, The Wall M series displays automatically enter stand-by mode. During stand-by mode, power consumption drops to less than 0.5W, improving operational efficiency and sustainability.

Techninė specifikacija

Display	
Display technology	MicroLED
Pixel pitch	1.56 x 1.56 mm
Display brightness	600 cd/m²
Display diagonal	68.8 cm (27.1")
Colour temperature (min)	2800 K
Colour temperature (max)	10000 K
Colour temperature	6500 K
Contrast ratio (typical)	10000:1

High Dynamic Range (HDR) supported	Yes
High Dynamic Range (HDR) technology	High Dynamic Range 10 (HDR10), High Dynamic Range 10+ (HDR10 Plus)
Viewing angle, horizontal	160°
Viewing angle, vertical	160°
Colour depth	16 bit
Number of pixel per module	384 x 216
Mean time between failures (MTBF)	100000 h

Design

Placement supported	Indoor
Orientation	Horizontal/Vertical
Wall mountable	Yes
International Protection (IP) code	IP20, IP40
Product colour	Black

Power

Power consumption (typical)	183 W
Power consumption (max)	467.2 W
AC input voltage	100 - 240 V
AC input frequency	50/60 Hz

Operational conditions

Operating temperature (T-T)	0 - 40 °C
Storage temperature (T-T)	-20 - 45 °C
Operating relative humidity (H-H)	10 - 80%

Technical details

Compliance certificates	Electromagnetic Compatibility (EMC)
-------------------------	-------------------------------------

Weight & dimensions

Width	600 mm
Depth	49.5 mm
Height	337.5 mm
Weight	5 kg

Packaging data

Package width	680 mm
Package depth	140 mm
Package height	408 mm
Package weight	6.3 kg

Matmenys ir svoris

Svoris	1,00kg
