### Pagrindinės savybės

- ✓ With the WLAN socket, electrical consumers such as standard lamps can be actuated easily via app or voice control, e.g. switched on and off at certain times
- ✓ Simple installation on your own WiFi network: since no hub is required, your devices can be set up in just a few minutes
- ✓ High compatibility: the new Matter standard combines connects this socket with all compatible Smart Home systems
- ✓ The perfect start: the smart socket is ideal for intelligently upgrading an apartment or house, but also for supporting people with physical disabilities
- ✓ Light chain, standard lamp, TV etc. can be switched on and off at set times, but also create groups or scenes using the devices integrated into your WLAN
- ✓ This means that you can save energy with the targeted control of electrical consumers, including - usefully - while out and about, if you have forgotten to switch the light off. That's because you are always kept up to date about the current status of the equipment via the app or push notification
- ✓ Manual switch: socket can also be switched off and on directly by hand
- ✓ With increased protection against accidental contact
- ✓ Your data is stored exclusively on German servers

## Aprašymas

### Smart Home without a gateway

Our WLAN socket works without any gateway (hub): you don't need an additional device, and you save on extra costs since the socket establishes a direct WiFi connection to the router

### Powerful

Powerful, intelligent socket: suitable for all devices up to 3680 Watts - whether they be decorative lighting, fans or entertainment electronics

### Compact and discreet

Smart and sleek: the compact shape with its discreet design blends in harmoniously and unobtrusively into any living space

### Extremely compact design

Space-saving and intelligent: the extremely compact design of the Smart socket integrates perfectly in confined spaces, since the space-saving construction does not cover any adjacent or sockets

### Can be extended at will with other Smart Home products

Step by step to the Smart Home: with the Hama Smart Home app, you can expand and network your smart home with any number of Hama Smart Home products

### Easy operation from anywhere via the app

Whether it be the sofa or the sun lounger: with the Hama Smart Home app, you can control your WiFi socket from anywhere and you have control over all the devices connected to it at all times

### Convenient voice control

Whether it be Amazon Alexa or Google Assistant: conveniently control the devices that are connected to the Smart Home sockets via spoken commands

### Matter Smart Home Standard

It doesn't matter: with the Matter Smart Home standard, you can connect the WLAN socket, regardless of the manufacturer, to any Matter-compatible app, such as Alexa, Apple Home or Google Home - so you can control smart devices around the home with even more convenience

## Techninė specifikacija
