Pagrindinės savybės

- ✓ Kėdė kompiuteriniams žaidimams
- ✓ Maksimalus naudotojo svoris: 120 kg
- ✓ Tinklelinė sėdynė Juoda Nailonas
- ✓ Tinklelinis nugaros atlošas Juoda Nailonas
- ✓ Atlošas Paminkštintas porankis
- ✓ Nugaros atramos kampo intervalas: 0 - 135°
- ✓ 5 ratas(ai / ū)

Aprašymas

Do you love long sessions, but during them you always suffer from back or cervical pain? This is often due to the lack of adjustment and profiling of the chair, which has nothing to do with the correct posture in front of the computer. Keeping in mind the comfort, health and expectations of gamers around the world, we have improved the Genesis Astat 200 to meet the expectations of even the most demanding users. Even stronger material and better adjustment of moving parts. This is the Genesis Astat 200 G2.

INNOVATIVE 8-RIB DESIGN

Proper profiling of the chair is the most important aspect that directly affects your health. Just as your spine is a support for your whole body, the Astat 200 G2 chair provides external support, relieving your back in each section of the spine. This is possible thanks to the 8-rib ExoBase™ design, which is a faithful reflection of how your spine should be arranged in the lumbar part. This element can be adjusted in up to 3 positions. Thanks to this, you will avoid back pain in the most vulnerable sections. You can be sure that the lack of pain will positively affect your concentration, which is highly likely to translate to better results achieved in the game.

TAKE CARE OF YOUR NECK

Did you know that many spinal injuries are related to the cervical spine? Most of the pain is caused by prolonged, excessive bending and incorrect inclination. The headrest of the Astat 200 G2 chair will allow you to set the angle of inclination and height so that you will forever get rid of the radiant pain that could hinder you.

EXCELLENT SUPPORT FOR YOUR ARMS AND HANDS

We have not forgotten about 3D armrests. You can easily adjust their height, extension and even the direction of position. Forget about them moving on their own. We've stiffened the armrests so that full control over their position depends only on you. Their soft finish gives great comfort.

ADJUST WHATEVER YOU WANT

The pain accompanying the players results primarily from the universal nature of chairs. We know perfectly well that each one of us is different, and the key to success is an armchair with elements that can be adapted to the individual needs of the player. This is how Astat 200 G2 was created, which thanks to adjustable elements will adapt to your position in front of the computer, but above all - your own posture. Tilt, lower and create your own individual, unique setting. Make the gameplay a real relaxation.

FEEL THE COMFORT REGARDLESS OF THE TEMPERATURE

Are you tired of leather finishes and are looking for an armchair that will provide you with full ventilation? Both the backrest and the headrest of the chair are made of mesh, breathable PureFlow™ material, which is not only easy to clean, but also durable and very resilient. The mesh material also covers the seat, which is made of comfortable, resistant to deformation foam. Forget about the chair getting too hot and focus on what really matters.

DESIGN THAT WORKS ANYWHERE

Do you want to match the Genesis Astat 200 G2 to your space? Whether you put it in the office or in the room of a real, avid gamer, it will always look phenomenal. Dark colors and subtle inserts in the form of Genesis brand logos make it look very professional.
