Aprašymas

Prevent visual eavesdropping by limiting the viewing angle of your screen.

This Laptop Privacy Screen is designed to work with laptops with a 12.1-inch 16:10 display.

Prevent visual eavesdropping

This privacy filter is a convenient and cost-effective solution to protect confidential data from unwanted viewers. The privacy shield darkens your computer's screen from the side while providing a clear viewing angle of 60 degrees (+/- 30 degrees from center) to the user.

Flip-Up and Touch

The feature enables you to quickly flip-up the privacy filter to share contents without uninstalling the filter. Your computer touch responsiveness is preserved by the ultrathin yet robust security shield, enabling seamless use. The privacy shield has a light transmittance of 60% providing optimal screen brightness and enhanced levels of privacy.

Hassle-free Installation

Install the privacy screen protector using the included adhesive strips or flip-up tabs. This unit is designed for use with displays that have raised bezels.

Blue Light Reduction

Reduce eye strain and improve visual comfort by reducing blue light exposure. The 12.1-inch laptop screen filter blocks up to 51% of the blue light emitted from the display. Digital eye strain can lead to symptoms like headaches, dry eyes, and blurred vision.
