Pagrindinės savybės

- ✓ Active Noise Cancellation (ANC) technology
- ✓ Up to 28 hours playtime
- ✓ Bluetooth 5.4 connectivity
- ✓ 13mm dynamic drivers for powerful sound
- ✓ Environmental Noise Cancellation (ENC) for clearer calls
- ✓ Enhanced call clarity with built-in microphone
- ✓ Smart magnetic auto on/off function
- ✓ Secure and lightweight neckband design
- ✓ USB-C® charging
- ✓ 300mAh battery capacity

Aprašymas

Immersive Sound with Active Noise Cancelling

The Verbatim TruSound ANC Neckband Earbuds feature Active Noise Cancellation (ANC), a technology that uses microphones and sound processing to reduce unwanted background noise around you. Unlike ENC, which improves outgoing call clarity, ANC actively reduces the noise you hear, helping you focus on music or podcasts in busy environments. The dedicated ANC button changes the transparency mode (noise cancelling, transparency or normal), when you need to hear what's around you. Game mode also minimizes the audio delay between the device and the earbuds while gaming, improving the sync between audio and the game actions. Combined with large 13mm drivers and a wide 20Hz-20kHz frequency range, these earbuds deliver rich, detailed sound with improved immersion.

Wireless Freedom with Reliable Bluetooth 5.4

Powered by Bluetooth 5.4, these wireless neckband earbuds offer stable connections and efficient energy use. With up to 28 hours of playtime, they are ideal for commuting, work or travel. The built-in microphone ensures clear voice capture for calls and virtual meetings. USB-C charging provides convenient power replenishment, while the lightweight 46.5g design offers comfort without compromising durability.

Designed for Comfort and Everyday Convenience

The ergonomic neckband keeps your earbuds secure and easily accessible. For added practicality, the magnetic earbuds feature a smart auto on/off function. When attached together, the earbuds automatically power off to conserve battery life. Simply pull them apart and they power on instantly, ready to reconnect to your device. Reattaching them switches them off again, offering intuitive control without the need to press any buttons.

Multiple ear tip sizes (S, M, L) ensure a comfortable fit and improved passive noise isolation. Built from ABS, silicone and TPE materials, the earbuds are durable yet flexible for daily use. With wide device compatibility and modern USB-C charging, they provide a practical audio solution for smartphones, tablets and laptops.

For further details on features and operation, please refer to the Quick Start Guide (QSG) included with the product.

Techninė specifikacija

Performance	
Product type	Headset
Wearing style	Neck-band
Recommended usage	Music/Everyday
Headset type	Binaural
Product colour	Grey
Market segment	Consumer
Operating keys	Answer/end call, Reject call, Play/Pause, Track <, Track >, Volume -, Volume +
Volume control	Button

Control unit type	In-line control unit
Control type	Buttons
LED indicators	Yes
Signal-to-Noise Ratio (SNR)	80 dB
Housing material	Acrylonitrile butadiene styrene (ABS), Silicone, Thermoplastic elastomer (TPE)
Ports & interfaces	
Connectivity technology	Wireless
Bluetooth	Yes
Bluetooth profiles	HFP, HSP, A2DP, AVRCP
Bluetooth version	5.4
Headphones	
Ear coupling	Intraaural
Headphone frequency	20 - 20000 Hz
Impedance	32 Ω
Headphone sensitivity	124 dB
Driver unit	1.3 cm
Noise canceling	Yes
Noise canceling type	Active
Microphone	
Microphone type	Built-in
Microphone sensitivity	-38 dB
Battery	
Battery operated	Yes
Battery type	Built-in battery
Battery technology	Lithium Polymer (LiPo)
Battery capacity	300 mAh
Continuous audio playback time	28 h
Charging source	USB
Operational conditions	
Operating temperature (T-T)	-10 - 40 °C
Weight & dimensions	
Width	460 mm
Depth	130 mm
Height	15.2 mm

Weight	46.5 g
