Aprašymas

Lindy Power Cables are high quality, reliable power delivery connections for use in a wide variety of professional and home environments.

The IEC C14 connector fits to many devices with IEC C13 ports and is widely used in the IT-, Audio-, Video- and Event sector. The C5 (Mickey Mouse) connector is ideal for the connection of a notebook power supply.

The brass used in the connectors has a lead content of far below 0.1% and is therefore SVHC-free, as are all other materials used in these cables.

Please note that this cable is for use in dry areas only.

IEC C5 to IEC C14 Mains Cables are available in the following lengths: 1m, 2m, 3m and 5m.
