Aprašymas

Universal connection: Connects devices with C5 plug to IEC C14 cold device connections.

Compact adapter solution: Ideal for confined spaces, mobile applications and service technology.

Standard-compliant design: IEC 60320-compliant for professional power connections.

Reliable contact: 3-pole design for stable power supply.

Versatile use: Compatible with notebook power supplies, monitors and AV equipment.

The InLine® C14 to C5 mains adapter enables the direct connection of devices with an IEC C5 plug - e.g. notebook power supply units - to a type C14 IEC plug. This makes it the ideal solution if there is no free socket outlet but only an IEC cold appliance connection available.

The 3-pin, standard-compliant design in accordance with IEC 60320 provides a stable and safe power connection. The adapter is ideal for IT and service technicians working in data centers, laboratories or industrial environments with devices that have C5 power connections. It also offers a practical addition to the classic power cable for mobile applications or in the workshop.

Thanks to its compact design, the adapter can be used in a space-saving manner - e.g. in 19" environments, on the lab bench or in the home office. A robust, professional accessory for anyone who wants to use existing IEC connections flexibly.

Socket: IEC 60320 C14

Plug: IEC 60320 C5

Number of poles: 3-pin

Max. Current: 2.5 A

Color: Black

Techninė specifikacija

Features	
Product colour	Black
Purpose	Laptop
Weight & dimensions	
Width	29 mm
Depth	65 mm
Height	20 mm
Weight	31 g
Packaging data	
Package width	30 mm
Package depth	65 mm
Package height	20 mm
Package weight	33 g
Technical details	
Package volume	100 cm³
Logistics data	
Quantity per pack	1 pc(s)
Matmenys ir svoris	
Svoris	0,03kg
