It transmits superior high-definition surround sound between AV components with fiber-optic interfaces. Rediscover your favorite movies, music and video games with crystal-clear audio. This optical audio cable is ideal for all devices with an optical interface such as AV receivers, (pre)amps, soundbars, sound systems, TVs, PCs, DACs (digital-to-analog converters), PlayStation® (PS3/PS4/PS4 Pro), Xbox® (One/360) and more.

State-of-the-art transmission technology plus gold-plated contacts

The cable's high-grade optical fiber and polished lens allow for the best possible performance without compromising sound quality.
