Aprašymas

Digital radio with alarm clock for receiving analogue and digital radio stations via FM/DAB/DAB+ or Bluetooth

DAB/DAB+/UKW (FM)

Listening pleasure with state-of-the-art technology: hiss-free and digital with DAB/DAB+, but also with conventional UKW (FM) reception

User-friendly with control dial

For everyone who wants to simply listen to the radio: with control dial and large buttons for intuitive operation

Large writing

Large and easy-to-read font: older people, people with visual impairment and children can easily recognise the letters on the buttons

Extra-large display

Extra-large 4.3" TFT colour display for the clear presentation of information

Easy-to-follow user interface

Pleasant and single-step menu guidance: if you wish to perform a specific function, simply press the corresponding button - you don't have to click through a complex menu first

Bluetooth for streaming

Thanks to the Bluetooth receiver (RX), you can easily stream music from your smartphone, tablet, notebook and PC to your device

Labels and menu guidance in German

All labels and menu guidance on the radio are entirely in German, so you do not need to speak English to operate it

Alarm function

Start the day with your favourite station and two alarm memory slots: it can be set for both wake-up times whether the alarm is to sound only once, daily, on work days, on weekends or only on specific days

4 direct selection buttons for favourite stations

The four direct selection buttons allow you to store your favourite stations and find them without searching
