Aprašymas

A 2D Barcode Scanner with wireless freedom to improve speed, accuracy and productivity

This wireless Manhattan 2D Barcode Scanner is an entry-level solution for high-quality scanning to help improve routine transactions, automate paper-based processes and increase productivity. Its 2D scan engine offers speed, accuracy and higher tolerances to reliably read and report popular 1D and 2D barcodes, including UPC/EAN, QR codes and more.

Easy to implement and simple to use, this barcode scanner includes a built-in keyboard wedge decoder that sends scanned data to an active application, where it appears as if it were manually typed or directly keyed in. The versatile USB connection of its charging base integrates with most PCs without any complicated installation. With an accurate read range of up to 250 mm (9.84 in.) and a wireless technology range up to 80 m (264 ft.) from the base, the Manhattan 2D Barcode Scanner offers a practical daily scanning solution in point-of-sale, postal, hospitality, travel, shipping, warehousing, office and other commercial and industrial applications to minimize manual data entry, speed transactions and reduce errors. Its IP42 rating means the scanner is protected against water spray and dust.
