Pagrindinės savybės

- ✓ Unbreakable: Combines the surface hardness of glass with the flexibility of plastic.
- ✓ Scratch-resistant: The tempered glass (9H) effectively protects against scratches.
- ✓ Highest transparency (>92%) and color fidelity [ultra HD quality]. Invisible and ultra-thin (0.3mm).
- ✓ Dirt-repellent: High-tech Anti-Fingerprint coating for less dirt, best touch function.
- ✓ Contour and openings are optimally designed for the iPhone 13/13 Pro, 3D/haptic touch and fingerprint sensors are supported.
- ✓ Easy, bubble-free application with the included EASY-ON® Sticker.

Aprašymas

Smart Glass (9H), unbreakable, ultra-thin, invisible, with EASY-ON® Stickers

DISPLEX Hybrid Glass is a combination of conventional protective glass and extremely thin, flexible, virtually indestructible protective film. With a surface hardness of 9H, it offers very good protection against scratches and other damage. At the same time, with 0.25mm, it is ultra-thin, resistant, flexible or bendable and therefore almost indestructible. The DISPLEX Hybrid Glass is manufactured with the latest laser technology in our production facility in Straubing, Germany, and is precisely adapted to the contour of the smartphone display - Made in Germany. The unrestricted

functionality, colour brilliance and case compatibility are of course guaranteed.

Case-friendly

Our Displex protective glass is manufactured to within 5/100 mm of the smartphone contours and therefore fits perfectly on your smartphone. In addition, the protective film is ultra-thin at 3mm. This means that all standard-sized protective cases can be used with the screen protection glass. Thus, your smartphone is optimally protected all around by a combined protection of the Displex Tempered Glass and your favourite case.

Anti fingerprint coating

The top layer of our 4-Layer Technology is a high-tech plasma coating. With an extremely long-lasting effect, this coating effectively repels fingerprints. In addition, the plasma coating guarantees a soft scrolling experience. This technology not only makes your display look better, but it also keeps it cleaner and therefore requires less frequent cleaning.

High-performance adhesive

Once the protective glass has been fitted, the high-performance adhesive ensures optimum adhesion properties and a clear look. The adhesive is adapted to all display coatings of the various manufacturers so that the protective film for mobile phones holds reliably in the long term. The visual appearance is not affected either: despite the screen protection film, you can enjoy gripping videos and photos with maximum transparency and colour fidelity.

Simple & bubble-free application

With the EASY-ON® Stickers and the accompanying video tutorials, mounting the Tempered Glass is incredibly quick, easy and precise. The result is worth seeing: no crooked positioning of the screen protector on the display, no hidden openings for speakers or microphones and certainly no bubbles under the protective glass.

Techninė specifikacija

Features	
Brand compatibility	Apple
Compatibility	iPhone 13/13 Pro
Maximum screen size	15.5 cm (6.1")
Protection features	Impact resistant, Scratch resistant, Dust resistant
Hardness	9H
Performance	
Product colour	Transparent
Material	Glass
Easy to remove	Yes
Rounded edges	Yes
Fingerprint resistant	Yes
Packaging content	
Quantity per pack	1 pc(s)
Cleaning kit	Yes

Package type	Hanging box
Matmenys ir svoris	
Svoris	0,09kg
