Pagrindinės savybės

- ✓ Dye ink Superior durability, vibrant colours and rich black tones on glossy media
- ✓ Media Flexibility Expanded media support. Label widths from 25.4mm to 215.9mm
- ✓ Compact and easy to use Simple, unobtrusive design with front panel operation, and familiar, proven design and platform
- ✓ Built-in peeler model (CW-D6500Pe) For print-and-apply production line goods
- ✓ Auto-cutter model (CW-D6500Ae) For product labelling, food and beverage, retail, and print and apply solutions

Aprašymas

These on-demand, digital, four-colour label printers open up new opportunities for businesses with lots of SKUs to manage and not much time. The CW-D6500 Series meets the needs of small to medium batch customers across many sectors (product labelling, food and beverage, retail, and print and apply etc.). The series includes peeler-equipped (Pe) and auto-cutter (Ae) models.

Dye ink

The new dye inks can cover specific requirements, including superior abrasion and rubbing resistance on specific glossy media. Labels remain vibrant and intact, even under harsh conditions. Dye inks also let you achieve stunning results with a much wider colour range. This makes the CW-D6500 series perfect for premium products and marketing materials, and the rich black tones are ideal for labels that require a strong visual impact.

Media flexibility

The CW-D6500 series benefits from a wealth of features that are designed to provide practical and creative solutions. It supports media widths, from 25.4mm to 215.9mm and boasts expanded media support which even includes textured paper. Thanks to the dye inks, the product range also has excellent support for glossy media.

Easy to use

The series has been designed to be extremely user friendly. All operations can be carried out from the front, saving operation space. The roll replacement is possible from the front, right and left. We've also designed a number of technical tools to help with printer management, configuration and maintenance, including: web interface and printer fleet management, remote configuration, maintenance and monitoring.

Print quality

These label printers offer high-quality, high-resolution, four-colour print output as standard; along with colour matching functionality (ICC profile and spot colour matching tool) for impressive, impactful, on-demand colour labels.

Easy integration

All models in the range are integration-friendly. SAP direct support, ESC Label, Linux and Mac drivers. ZPLII compatible

Techninė specifikacija

Printing	
Print technology	Thermal transfer
Colour	Yes
Maximum resolution	1200 x 1200 DPI
Print speed	85 mm/sec
