Aprašymas

This HUB offers sixteen USB 3.0 ports with the Plug & Play function and with standard USB charging – the HUB automatically detects whether a device for USB charging is connected. As this HUB is equipped with sixteen USB 3.0 ports, it can charge up to sixteen devices at a time. The USB 3.0 interface is especially important for data transfers from USB 3.0 memory cards and flash drives, where its high transfer rate is most useful. An external power adapter is included in the package to guarantee stable HUB performance and charging from the USB ports, providing up to 10 W of charging power for each port.
