Prevent Visual Eavesdropping

This privacy filter is a convenient and cost-effective solution to protect confidential data from unwanted viewers. The privacy shield darkens your Surface Book or Surface Laptop from the sides while providing a clear viewing angle of 60 degrees (+/- 30 degrees from center) to the user.

Anti-Glare Filter

The privacy screen protector features an anti-glare matte finish on both sides for bright environments. The filter provides additional screen protection with a fingerprint and scratch-resistant coating. The privacy shield has a light transmittance of 57.5% providing optimal screen brightness and enhanced levels of privacy.

Hassle-free Installation

The privacy filter is an exact fit design that will not interfere with top-mounted webcams, sensors, or when closing the lid. Affix the privacy screen shield using transparent mounting tabs.

Blue Light Reduction

Reduce eye strain and improve visual comfort with this blue light reducing privacy shield. It blocks up to 51% of the blue light emitted from the display in the 380nm - 480nm wavelength range. Digital eye strain can lead to symptoms like headaches, dry eyes, and blurred vision.
