Aprašymas

The eSTUFF passive stylus pen is a smart and cost-effective solution for your touchscreen needs. Unlike using your finger, this pen prevents your screen from getting dirty and oily. It also works with any device that has a capacitive touchscreen, whether it is a smartphone, tablet, laptop, or monitor.

The eSTUFF passive stylus pen has a precision tip that simulates the touch of your finger, but with more accuracy and control. You can use it for browsing the web, swiping through photos, drawing and sketching, and more. However, if you need a higher level of precision and functionality, you may want to consider an active stylus pen instead.
