Pagrindinės savybės

- ✓ **Create a Mobile Workstation with One Adapter**: Transform one USB-C port into 4K 60Hz HDMI, 140W USB-C PD passthrough, and USB-A data ports, reducing the amount of dongles and adapters needed for shared workspaces, travel kits, and IT deployments
- ✓ **Support High-Powered and AI-Ready Devices with 140W Passthrough**: A single USB-C port delivers either 140W PD passthrough for demanding workloads and high-performance laptops or up to 10Gbps USB data transfer, ensuring flexible power or data functionality
- ✓ **Expand Storage and Connectivity Instantly**: Built-in SD slot supports SD, SDHC, and SDXC (UHS-I) cards for file transfers, while 2x 10Gbps USB-A ports connect accessories, letting you quickly access storage and devices without extra adapters or hubs
- ✓ **2.5G Ethernet for High-Speed Networking**: 2.5 Gigabit Ethernet connectivity delivers consistent wired performance for file transfers and cloud-based workflows where wireless latency, congestion, or security policies disrupt productivity
- ✓ **The IT Pro's Choice**: Our multiport adapters are rigorously tested in our Innovation Lab to ensure enterprise-grade reliability and cross-platform compatibility; Built to support large-scale deployments, Windows 11 upgrades, and the shift to AI-enabled PCs

Aprašymas

Create a mobile workstation wherever you work with a single 4K 60Hz HDMI display, 2x USB-A 10Gbps ports, 2.5Gbps Ethernet, an SD Card slot, and 140W USB Power Delivery 3.1 pass-through for laptop charging

Turn a single USB-C port into a complete mobile workstation with video, power, data, storage, and wired networking in one compact adapter.

Deploy Clean, Clutter-Free Workstations Anywhere

Transform one USB-C port into 4K 60Hz HDMI, 140W Power Delivery passthrough, and multiple USB ports. Reduce dongles in shared desks, hoteling spaces, travel kits, and field deployments. Standardize on one adapter to simplify provisioning and support across laptop deployments.

Power High-Performance and AI-Ready Laptops

Deliver up to 140W USB-C Power Delivery passthrough to support demanding workloads and high-performance systems. When power is not required, enable up to 10Gbps USB-C data transfer for fast external drives and peripherals. Give users flexible power or data based on their task and setup.

Expand Connectivity and Strengthen Network Performance

Access SD 3.0 UHS-I media for file transfers and connect phones, tablets, and storage through two 10Gbps USB-A ports. Add 2.5GbE for reliable wired networking in environments where Wi-Fi congestion, latency, or security policies impact productivity.

Built for Sustainability, Designed for Performance

This hub features a housing made from 75% post-consumer recycled (PCR) aluminum, 75% PCR Plastic, and a cable jacket composed of 35% PCR TPE (Thermoplastic Elastomer). The product also ships in FSC Mix packaging made from responsibly sourced materials. These materials help align your IT infrastructure with your organization's sustainability goals, without compromising on quality or durability.
