Pagrindinės savybės

- ✓ Stalinis maršrutizatorius Juoda
- ✓ Dviguba juosta (2,4 GHz / 5 GHz) Wi-Fi 6 (802.11ax) 1201 Mbit/ai
- ✓ Gigabitinis eternetas
- ✓ Eterneto WAN
- ✓ Ethernet LAN (RJ-45) portų kiekis: 2

Aprašymas

Upgrade Your Network with WiFi 6

The latest WiFi 6 standard implements advanced technology designed to deliver more simultaneous stable connections, extend WiFi range, and maintain reliably fast data transmissions, satisfying the demand for a high-performance wireless experience.

Level Up Your Speeds up to 40% Faster

By combining 1024-QAM and a long OFDM symbol, MR1500X delivers gigabit fast speeds up to 1500 Mbps for all your WiFi devices – 1201 Mbps on 5 GHz and 300 Mbps on 2.4 GHz. Game online, watch 4K videos, and crank up everything to the highest settings without lag.

Connect 4x More Devices at Once

More Streams, More Devices, More Fun

WiFi 6 also improves network capacity to better address the increased demand on home networks. With MU-MIMO and OFDMA, MR1500X transmits data to and from multiple devices at the same time, reaching up to 4x more capacity, greatly increasing your devices' transmission efficiency and the throughput of your whole network under the same conditions.

Broader, Stronger Coverage

Four powerful high-gain antennas armed with advanced wireless technology provide strong signals throughout your home. Beamforming detects your connected devices and concentrates wireless signal strength towards them, making your connections more stable.

Less WiFi Interference

BSS Color marks the data frames from different APs which helps minimize the signal interference from your neighbors to improve transmission efficiency.

Smart Connect Combines Two Bands in One

Equipped with next-gen WiFi 6, both 5 GHz and 2.4 GHz are upgraded to the latest generation. Smart Connect combines the 2.4 GHz and 5 GHz bands into a single WiFi SSID and helps your devices intelligently choose the best available band that has the stronger signal and faster speed. This keeps your devices always running optimally when you walk around your home.

Easy Setup and Management via the MERCUSYS App

Without needing technical knowledge or reading installation instructions in advance, just follow the on-screen directions with the MERCUSYS app to set up your router in minutes. The MERCUSYS app helps you set and manage your WiFi at home or away through your iOS or Android devices.
