Pagrindinės savybės

- ✓ New technology - feels like glass but won't break like glass
- ✓ Made from 100% recycled (rPET), 100% recyclable
- ✓ 9H hardness - Up to 5x stronger than screen alone
- ✓ Curved black edge ensuring luxury feel whilst remaining virtually invisible
- ✓ Antimicrobial-treated preventing microbial growth that causes discolouration and degradation
- ✓ Easy application - precise alignment every time
- ✓ Case-friendly
- ✓ Anti-fingerprint - finished with an anti-fingerprint coating to reduce finger marks
- ✓ Flawless touchscreen experience - precision touch sensitivity

Aprašymas

Eco-shield is an unbreakable screen protector made from 100% recycled and recyclable plastic materials without compromising on protection and quality! This easy application screen protector reacts like your phone's own screen and fits perfectly on your device. Incredibly slim at just 0.4mm, you'll hardly notice the ultra-tough layer of protection.

TIRED OF SCREEN PROTECTION THAT BREAKS?

eco-shield's NEW technology delivers recycled, 100% recyclable, zero compromise, earth-friendly 9H sustainable screen protection that doesn't break.

eco-shield is our strongest screen protection ever. Made from recycled materials & 100% recyclable without compromising protection and quality, this easy application screen protector fits perfectly on your device, offering all-around sustainable protection when paired with one of our recycled cases.

GLASS IS PRODUCED BY REMOVING A NATURAL RESOURCE

Did you know that after air and water, sand is our most used natural resource? We even use it more than oil! Taking sand out of the natural environment disrupts the ecosystem, considering microorganisms live on it which feed the base of the food chain.

THE MAJOR ENVIRONMENTAL IMPACT OF GLASS PRODUCTION IS CAUSED BY ATMOSPHERIC EMISSIONS FROM MELTING ACTIVITIES. Tempered Glass is heated to >600 OC / 1112 OF. The combustion of natural gas and the decomposition of raw materials during the melting lead to the emission of CO2.

The complicated production of glass also includes high levels of waste material, and not to mention the huge amounts of water being used for cooling, shaping and cleaning.

SHATTERS EASILY

It is estimated a user will replace the screen protector up to 3 times during the lifetime of their device. Sustainability is all about durability, and all ways of prolonging a product's life cycle is better for the environment than producing a new.

Techninė specifikacija

Features	
Protector type	Clear screen protector
Brand compatibility	Samsung
Compatibility	Galaxy S25 FE
Maximum screen size	17 cm (6.7")
Protection features	Anti-bacterial, Break resistant
Hardness	9H
Performance	
Product colour	Transparent
Material	Recycled Polyethylene Terephthalate (rPET)
Easy to apply	Yes
Fingerprint resistant	Yes
Frame type	Full frame
Weight & dimensions	
Width	72 mm
Depth	0.6 mm
Height	157 mm
Weight	1 g
Packaging content	
Quantity per pack	1 pc(s)
Technical details	
Product recycled materials	Recycled polyethylene terephthalate (PET)

Overall recycled content	100%
Matmenys ir svoris	
Svoris	0,07kg
