Pagrindinės savybės

- ✓ 1x safety socket
- ✓ Socket with safety shutter
- ✓ IP44 for protection against splash water and penetration of foreign bodies >1 mm
- ✓ Mechanical time switching by rotary switch
- ✓ 7 presets selectable
- ✓ Safety plug

Aprašymas

Product information "Mechanical time switch with dusk sensor, IP44, outdoor" from LogiLink

The outdoor mechanical timer with dusk sensor can be operated conveniently and easily with the aid of 7 different presets; complicated programming is not required. Once set, the power supply to the connected device is automatically activated or deactivated depending on the brightness and the option set. Decide for yourself: You can switch the device on and off completely manually by selecting the "ON" or "OFF" mode or you can use one of the dusk options. In the general twilight mode, the power outlet switches on as soon as it gets dark. In the time-based dusk modes, the socket outlet also switches on at dusk, but then switches off again after a certain period (2/4/6/8 hours). This allows you to decide for example when and how long you want your garden lighting to stay on in the evening.

The Outdoor Timer Switch with Twilight Sensor can be operated conveniently and easily with the help of 6 different presets; no complicated programming required. Once set, the power of the connected device will be activated and deactivated by daylight and darkness automatically. Also, you can switch the device on or off via the On/Off switch to avoid unnecessarily plugging and unplugging the device. Perfect for outdoor use.

Just Set & Go

Easily turn the dial to set up the timer to one of the 6 presets (On, 2/4/6/8 hours and Twilight). Once set, the power of the connected device will be activated and deactivated by daylight and darkness daily.

On/Off Switch

Enables you to switch the device on or off easily; avoid unnecessarily plugging and unplugging your device.

IP44 Rating for Outdoor Use

IP44 rated Timer and LED indicator is excellent for automation of lighting in the garden and patio.

Energy-Saving

Convenient control of electronic devices helps you reduce power consumption to save costs on electricity and extend the life of your devices/appliances.

Techninė specifikacija

Features	
Timer type	Daily timer
Product colour	White
Control type	Rotary
Number of programs	7
International Protection (IP) code	IP44
Power	
AC input voltage	230 V
AC input frequency	50 Hz
Maximum power	3680 W
Maximum current	16 A

Power consumption (standby)	1 W
-----------------------------	-----

Weight & dimensions

Width	57 mm
Depth	87.5 mm
Height	112 mm
Weight	130 g

Operational conditions

Operating temperature (T-T)	-10 - 40 °C
-----------------------------	-------------

Matmenys ir svoris

Svoris	0,18kg
