- ✓ Integrated cable management helping to create a clean and tidy workstation
- ✓ Easy installation by tightening the supplied C Clamp to any desk
- ✓ VESA Compliant of both 75x75 and 100x100mm

Aprašymas

The Lindy Dual Display Gas-Spring Desktop Mount offers a sleek, versatile solution to elevate your workspace, whether you're in an educational environment, an office, or working from home. Ditch those bulky, traditional monitor stands and embrace a cleaner, more organized desk setup. Designed for displays up to 27 inches and 5kg in weight, this mount ensures compatibility with most monitors thanks to its VESA standard support. Featuring advanced gas-spring adjustment, providing a substantial upgrade over conventional clamp-based brackets. With full 360° rotation, 180° pivot, as well as tilt adjustment, you have the freedom to position your display exactly where you need it.

The height adjustment capability ensures your monitor is always at eye level, promoting a comfortable, ergonomic workspace that reduces the risk of strain and injury. Best of all, these adjustments can be made effortlessly, without the need for tools after installation.

Integrated cable management keeps your workspace tidy and minimalist by neatly tucking away cables, eliminating unsightly clutter. The mounts design frees up valuable desk space, making room for additional hardware or simply more workspace. This is particularly advantageous in compact office settings like call centers or live chat help desks, where maximizing every inch of space is crucial. Adjusting the monitor weight is simple, just

tighten or loosen the adjustment bolt using the supplied Allen key. However it is important to ensure the bolt is not over-tightened, as this could cause the monitor to become loose and unsupported by the arms, simply readjust the tension to resolve this issue.

Please ensure that your display is VESA compatible and does not exceed the maximum supported weight of 5kg

Techninė specifikacija

Mounting
