Aprašymas

Universal compatibility for professional use: Works seamlessly with Windows, Android, and iOS systems—ideal for heterogeneous IT environments.

Compact design for mobile use: The foldable format saves space and is perfect for service technicians, field staff, or mobile workplaces.

Triple Bluetooth pairing: Enables quick switching between up to three paired devices – particularly efficient in changing usage scenarios.

Integrated touchpad: For precise control without an additional mouse – ideal when space is limited or in mobile environments.

Fast charging via USB-C: Future-proof charging port with 140 mAh battery – guarantees reliable performance in daily use.

The foldable Bluetooth keyboard from InLine® offers professional user solutions in a particularly compact format. With a German QWERTZ layout, integrated touchpad, and compatibility with Windows, Android, and iOS systems, it is ideal for system houses, technicians, and mobile IT workstations.

Thanks to the ability to pair up to three devices simultaneously via Bluetooth 5.4, the keyboard enables seamless working with various end devices – be it a notebook, tablet, or smartphone. Switching between devices is convenient at the touch of a button. The integrated touchpad makes it particularly flexible to use, as no separate mouse is required – a major advantage in environments with limited space.

With its robust construction, extremely low power consumption in standby mode, and a built-in lithium-ion polymer battery, the device is designed for daily use in a professional environment. The USB-C charging port ensures fast power supply and modern connectivity.

Whether for presentations, field service configurations, or as a mobile input device, the foldable Bluetooth keyboard with touchpad offers an ideal solution for demanding professionals who value mobility, reliability, and functionality.
