Aprašymas

Spare seal set for M20 power cable couplings with silicone seals

Handy spare parts set: Contains various silicone rings and silicone seals for the maintenance and replacement of sealing elements on M20 power cable couplings.

Versatile use: Different seal sizes allow for use with various connectors and conical union nuts within compatible M20 power cable couplings.

Easy replacement: Worn or lost seals can be replaced individually without having to replace the entire power cable coupling.

Clear scope of delivery: All included sealing elements are grouped together in a single set and are immediately available for maintenance and servicing work.

The InLine® sealing set for M20 power cable couplings contains various silicone seals for replacing worn or lost sealing elements. The set comprises silicone rings for connectors as well as silicone seals for conical union nuts in several sizes. This allows suitable sealing elements to be selected according to the existing design.

Replacing individual seals enables the maintenance of existing M20 power cable couplings without having to replace the entire coupling. The set is suitable as a spare part for maintenance and servicing work, as well as for new installations where suitable sealing elements are required.

As the set comprises several different types of seal, the required spare parts are readily available and can be used as and when needed.

Seal set for M20 power cable couplings

2 silicone rings for plug connection, thin

2 silicone rings for plug connection, wide

2 silicone rings for plug connection, small

- 2 silicone seals for conical union nut, 8 mm
- 2 silicone seals for conical union nut, 3.5–6.5 mm
- 2 silicone seals for conical union nut, 11.5 mm
- 2 silicone seals for conical union nut, 14.5 mm

Techninė specifikacija

Features	
Product type	Cable sealing kit
Product colour	Black, Red, Green
Seals material	Silicone
Logistics data	
Country of origin	China
Technical details	
Package volume	200 cm³
Packaging data	
Package width	70 mm
Package depth	140 mm
Package height	20 mm
Package weight	19 g
Matmenys ir svoris	
Svoris	0,02kg
