Aprašymas

Complete set with silicone rings and seals for different cable diameters

Versatile:The seal set contains silicone rings and silicone seals for M20 cable glands with RJ45, USB and fibre-optic applications.

For different cable diameters:Three different seal variants allow use with different cable diameters within compatible M20 cable glands.

Ideal as a replacement:Damaged or lost seals can be easily replaced without having to replace the entire cable gland.

Complete set:Contains silicone rings for the twist lock mechanism as well as silicone seals for conical union nuts in several designs.

Easy to maintain:The set is suitable for replacing existing seals and facilitates quick repairs to compatible cable glands.

The InLine® seal set is designed as a replacement for M20 cable glands used in RJ45, USB and fibre-optic applications. It contains silicone rings for the twist-lock mechanism and silicone seals for conical union nuts in various designs. This ensures that suitable seals are available for different cable diameters.

The set is suitable for maintenance, servicing and repair work when existing seals need to be replaced. Damaged or missing sealing elements can be easily replaced without having to replace the entire cable gland. The various seal variants allow for a flexible response to different installation requirements.

4 silicone rings for twist-lock couplings

2 silicone seals for conical union nuts 1.5–4.5 mm

2 silicone seals for conical union nuts 4.5–7.5 mm

2 silicone seals for conical union nuts 2 x 3.5 mm

Techninė specifikacija

Features	
Product type	Cable sealing kit
Product colour	Green
Seals material	Silicone
Technical details	
Package volume	200 cm³
Packaging data	
Package width	70 mm
Package depth	140 mm
Package height	20 mm
Package weight	19 g
Matmenys ir svoris	
Svoris	0,02kg
