Aprašymas

Expanded installation options with 2U: Offers space for two 10" components while maintaining a compact design.

Robust SPCC steel housing: 1.5 mm thick with high-quality black powder coating (RAL9005).

Easy to assemble: Comes with screws, dowels, and eight M6 cage nuts for direct installation.

Suitable for 10" patch panels & switches: Ideal for network technology, control units, or embedded systems.

More depth for larger components: 15.2 cm installation depth allows for more flexible use of deeper devices.

The InLine® 10" mini rack for wall mounting in a 2U design with a depth of 15.2 cm offers maximum flexibility with minimum space requirements.

The two height units allow the integration of several network or control components in a compact wall-mounted enclosure.

Made of 1.5 mm thick SPCC steel with black powder coating (RAL9005), the enclosure impresses with its stability and high-quality workmanship. Wall mounting is quick and secure with the included set of screws, dowels, and eight M6 cage nuts with matching screws.

Thanks to its depth of 15.2 cm, even devices with a greater installation depth can be easily integrated. The rack is ideal for applications in industry, building automation, or compact network solutions.
