Aprašymas

Enables external USB connections: Connects two USB 2.0 Type A sockets from the motherboard header to a slot bracket – for easily accessible connections on the rear of the case.

Direct connection to the motherboard: The slot bracket is connected internally to the USB header via the 10-pin IDC socket – without additional drivers or software.

Compact cable routing: Round connection cable with a length of 0.35 m allows for flexible routing inside the case – ideal even in tight spaces.

Robust construction: Metal slot bracket with firmly screwed USB sockets ensures a stable connection – even with frequent use.

Versatile: Compatible with most motherboards and cases – suitable for system integration, industrial PCs and custom PC builds.

The InLine® USB 2.0 slot bracket offers an easy way to provide two external USB ports via the internal USB header of a motherboard. The two USB Type A sockets are firmly mounted on a metal slot bracket and are connected internally via a round connection cable with a 10-pin IDC socket. The cable length is approx. 0.35 m, allowing for flexible cable routing in the PC case.

This solution is particularly suitable for desktop PCs, industrial enclosures or custom PC configurations where additional USB ports are required. Installation is tool-free and driver-free – the slot bracket is simply inserted into a free expansion slot on the case and connected to the USB header on the motherboard.

USB version: USB 2.0

Internal connection: 10-pin IDC pin header

External connection: 2x USB Type A socket

Cable length: approx. 0.35 m

Techninė specifikacija

Features	
Connector 1 gender	Female
Connector 2 gender	Female
Weight & dimensions	
Width	20 mm
Depth	350 mm
Height	120 mm
Weight	59 g
Packaging data	
Quantity per pack	1 pc(s)
Package width	175 mm
Package depth	225 mm
Package height	20 mm
Package weight	66 g
Package volume	800 cm ³
Other features	
Cable length	0.35 m
Dimensions (WxDxH)	20 x 350 x 120 mm
Matmenys ir svoris	
Svoris	0,07kg
