Aprašymas

Space-saving connection:The angled safety plug is ideal for tight spaces.

Reliable power supply:The IEC-C13 IEC plug is compatible with many IT and AV devices.

High-quality cable:H05VV-F cable for standard-compliant and durable power connections.

Universal use:Ideal for offices, server rooms, workshops or industrial environments.

Immediately ready for use:With pre-assembled plug connectors for quick deployment without further assembly.

The InLine® power cable with angled earthing contact plug (CEE7/7) and straight IEC C13 IEC connector offers a reliable and space-saving power supply solution for numerous applications in professional environments.

It is ideal for use in IT systems, laboratory environments, industrial workstations or event technology. Thanks to the angled earthing contact plug, the cable can be easily connected even in confined spaces, for example behind server cabinets, shelves or devices close to the wall.

The IEC C13 plug is a common connection for computers, monitors, printers, servers and many other devices with an IEC socket. The harmonized

cable (H05VV-F) ensures stable and standard-compliant operation at voltages of up to 250 V and a current of up to 10 A. The robust workmanship makes the power cable particularly durable and suitable for long-term use in professional installations. The pre-assembled plug connections enable immediate commissioning without additional effort.
