Aprašymas

Huanuo MSOC10 Office Chair

The Huanuo MSOC10 office chair is an ergonomic model designed for everyday desk work, featuring an adjustable 2D headrest, active 2D lumbar support, 3D armrests, and a backrest that reclines between 90° and 120°. The breathable mesh backrest improves airflow, while the seat—made of high-density foam and 8 cm thick—provides stable support during extended periods of sitting. The chair offers total height adjustment from 114 to 132 cm, seat height adjustment from 45 to 55 cm, and a maximum weight capacity of 136 kg.

Adjustable 2D lumbar support

Active lumbar support allows you to adjust the chair to your body type and preferred working position. The support can be adjusted up to 3 cm forward and backward and within a 5.5 cm vertical range, enabling you to position the support exactly where your lower back needs it. This design promotes an ergonomic posture and provides additional support for the lumbar region during long hours of sitting.

Adjustable Headrest and Reclining Backrest

The 2D headrest allows you to adjust the support for your head and neck, while the height of the backrest, including the headrest, can be adjusted from 68 to 80 cm. The backrest can also be reclined from 90° to 120°, allowing you to adjust it for both work and more relaxed positions. The mesh backrest design promotes air circulation, which improves comfort during extended use of the chair.

Thick, Height-Adjustable Seat

The Huanuo MSOC10 seat is 51 cm wide and features an 8 cm-thick layer of high-density foam. Its height can be adjusted from 45 to 55 cm above the floor, making it easy to adjust the position to the user's height and the height of the desk. The stable construction can support a load of up to 136 kg, and the base with casters is 70 cm in diameter, ensuring adequate support for the chair.

3D Armrests and Space-Saving Design

The 3D armrests allow for a more comfortable adjustment of forearm positioning while working—they can be moved forward and backward within a 5 cm range and rotated by 15°. They can also be tilted upward by 90°, making it easier to slide the chair under the desk after work and minimize the space it occupies. The black color scheme and the combination of a mesh finish with metal elements make the Huanuo MSOC10 a good fit for both home and office workstations.

Manufacturer	Huanuo
Model	MSOC10
Type	ergonomic office chair
Color	black
Frame material	metal
Maximum weight capacity	136 kg
Total height adjustment	114–132 cm
