Aprašymas

Efficient current control thanks to integrated switch
High-quality copper conductors (AWG 18) for optimum conductivity
Universal compatibility with common DC hollow plug devices
Compact length of 20 cm to avoid cable clutter
Robust workmanship for professional use

The InLine® DC extension cable with switch is the ideal addition for professional applications that require targeted control of the power supply. Energy efficiency plays a particularly important role in system houses, IT infrastructures or industrial applications. The integrated switch allows the power supply to be selectively interrupted, minimizing standby losses and optimizing energy consumption.

With an inner conductor made of AWG 18 copper, the cable ensures reliable signal and power transmission. The DC plug and socket with

3.5x1.35mm dimensions are compatible with many devices, including LED systems, network technology, surveillance cameras or professional audio and video components. The compact length of just 20 cm enables space-saving installation without creating unnecessary cable clutter.

Inner conductor: copper AWG 18

DC plug/socket: 3.5x1.35mm

Maximum load capacity: 12V/11.6A (140W)

Color: black

Cable length: 0.20m
