Aprašymas

AXAGON HMC-STND 7in1 Hub & Stand is a unique multifunctional hub integrated into a laptop or tablet stand. This hub expands your laptop or tablet by an additional six ports. You will connect your laptop to the hub via USB-C <-> USB-C 60 cm long cable. In no time, you have connection for a monitor, three USB devices, an RJ-45 connector for Gigabit Ethernet network, and Power Delivery technology to power the laptop. The two-joint stand improves ergonomics and comfort while working and is suitable for devices from 10" to 17.3". It is ideal as a 7in1 docking station for Windows laptops and Apple MacBook Air or MacBook Pro.

Three USB-A 5Gbps outputs allow connection of external drives (up to 2 at the same time), flash drive, mouse, printer and other USB accessories. The USB ports also charge mobile phones and tablets with up to 7.5W of power. The Gigabit network card expands the computer with a fast and stable network connection, fills in the missing RJ-45 Ethernet connector, or adds an additional network card.

The HDMI output enables the connection of an external monitor, TV or projector with a resolution of up to 4K/60Hz Ultra HD, 2K/120Hz Quad HD or 1080p/200Hz Full HD and the transmission of multi-channel audio. Thanks to HDR support, you can enjoy a significantly expanded range of colours and contrasts without limitations.

The PD USB-C input is designed for a suitable Power Delivery charger. This allows your mobile device and the hub to be powered directly from the PD charger using Power Delivery 3.0 technology with up to 100W of power. Second USB-C connector is used to connect to the laptop with the included 60 cm long cable with a reversible USB-C connector on both ends.

Thanks to the Plug and Play and Hot Plug functions, connecting the hub itself is very simple without complicated installation, and peripherals can also be easily connected and disconnected while the computer is running.

A great advantage is the clever double-hinge solution, which allows you to smoothly adjust the height of the laptop screen to be flush with your external monitor. This gives you an additional work place at the correct eye level, which greatly improves ergonomics and comfort at work, while increasing your productivity.

Its elegant grey design not only complements your desk in style, but also brings practical features you'll appreciate in everyday use. The base and hub cover are made of robust aluminum castings that provide passive cooling and guarantee long life and reliability of the stand and hub. Cutouts in the base ensure optimal heat dissipation from your laptop, increasing its performance and durability.

Thanks to the non-slip finish, your device stays securely in place without the risk of unwanted movements, and without any damage to the surface of the laptop or the pad.

Input (computer or tablet connection):
• USB 5Gbps (USB 3.2 Gen 1 / USB 3.0), USB-C female connector.
• Compatible with USB 10Gbps, USB4, Thunderbolt 3/4/5.

Input (power supply):
• USB Power Delivery 3.0 - 100W port, USB-C female connector.
• Powering the mobile device from the mains adapter via the USB-C hub.
• PD power must be supported by both the mobile device and the mains charger.

USB outputs:
• 3× USB 5Gbps port, USB-A female connector.
• USB-C hub can handle the connection of several external drives at the same time.
• Charging of mobile devices (including iPad) with a current of up to 1.5A/5V from the USB-A and USB-C PD.

Video outputs:
• 1× HDMI port, HDMI A female connector.
