Aprašymas

Dell Privacy Filter for 14.0 inch laptop keeps your onscreen data private, offering effective “black out” privacy from side views outside the 60-degree viewing angle.

Keep on-screen information private

The Dell Privacy Filter offers a clear view from the front and provides effective “black out” privacy from the sides. Keep others outside the 60-degree viewing angle from seeing what is on your laptop screen, without blocking your own view. Attach the privacy filter on a high resolution screen without compromising on screen clarity.

Ultra-thin and responsive to touch

Minimize pressure on the screen hinges of your thin and light laptops with a privacy screen filter that is just 0.29mm thin. Plus, have either your touch or non-touch screen protected from scratches, marks and smudges.

Easy to attach and remove

Use this reversible screen filter on either side and easily attach and remove the filter from your laptop.
