Aprašymas

Focused listening. Crystal-clear calls.

The Verbatim TruSound Pro Earbuds deliver serious noise-cancelling performance in a true wireless package. ANC actively reduces ambient noise by up to 25dB – enough to cut through the sounds of public transport, busy offices, and crowded environments. Switch to calls and ENC takes over independently, filtering background noise through four dedicated microphones so your voice comes through with clarity wherever you are.

50 hours and counting

The high-capacity 800mAh charging case is the number that makes these earbuds genuinely stand out. With 5 hours per charge from the earbuds and a case that keeps topping them up throughout the week, you can go days without needing a wall socket. The built-in EQ modes – Bass and Balanced, switchable with a button press – let you dial in your sound to match what you’re listening to, without needing an app.

Seamless. Stylish. Smart.

Bluetooth 5.4 with multipoint pairing keeps you connected to two devices at once, and three sizes of included ear tips help you find a secure, comfortable fit. USB-C charging on the case is quick and simple. Available in Black and White – two clean colourways built for everyday life. The TruSound Pro Earbuds: feature-rich audio that goes wherever you do.
