Aprašymas

Discover the reliable power solution for your UPS and power devices with Qoltec's battery. This product, featuring a 50 Ah capacity and 640 Wh, is powered by lithium iron phosphate technology, ensuring a durable and efficient energy source. With an integrated Battery Management System (BMS), it offers protection against overcharge, alongside compatibility with M8 ring terminals for secure connections. Designed to meet IP65 standards, it is resistant to dust and water, making it a versatile choice for various applications. Furthermore, its operational temperature range from -15°C to 60°C ensures consistent performance under diverse environmental conditions. Choose Qoltec for a dependable and safe power solution.
