Pagrindinės savybės

- ✓ Mesh - for more Wi-Fi in every room
- ✓ DSL, telephony and Smart Home on board
- ✓ An intelligent system for consistently strong signal
- ✓ Easy to use and smart apps

Aprašymas

The perfect FRITZ!Mesh Set for top Wi-Fi 6!

The powerful FRITZ!Mesh Set with two test winners (Stiftung Warentest) – the FRITZ!Box 7530 AX and the compact FRITZ!Repeater 1200 AX. Together they bring Wi-Fi 6 to your home network.

The powerful Wi-Fi 6 team

The FRITZ!Box 7530 AX and FRITZ!Repeater 1200 AX are a powerful team. Together they bring more Wi-Fi to every room - with Wi-Fi 6. The Wi-Fi 6 standard meets the needs of networks with the constantly increasing numbers of wireless devices. From smartphones, notebooks and speakers to 4K smart TVs: The FRITZ!Mesh Set brings optimal Wi-Fi power for all devices in the home network.

Wi-Fi 6 optimally integrates every device into the home network, meaning you always have a reliable data connection. Established standards such as Wi-Fi 5 and 4 also ensure compatibility with all devices.

Mesh Wi-Fi with FRITZ!

The FRITZ!Box 7530 AX and FRITZ!Repeater 1200 AX support Mesh Wi-Fi, meaning your videos, music and photos seamlessly reach every corner of your home, apartment or office. How does it work? The FRITZ! devices work together as part of a single network, communicating with each other and optimizing wireless devices and network usage.

With Mesh you enjoy high speeds while surfing, streaming or gaming. Instead of waiting for breathtaking HD television and your favorite music, your media will wait for you.

A convenient telephone system for IP-based connections

The FRITZ!Box 7530 AX includes a telephone system for modern IP-based connections. With DECT you can create a telephone system with up to six cordless phones. There are also ports for connecting an analog telephone or fax machine. Multiple answering machines, online telephone books and numerous convenience features make phone calls via the FRITZ!Box 7530 AX a joy.

A variety of connections

The FRITZ!Box 7530 AX is suitable for all DSL connections up to 300 Mbit/s. Whether ADSL, ADSL2+, VDSL or 35b supervectoring: Your FRITZ!Box establishes the connection, meaning you can sit back and enjoy high-speed internet access. Four gigabit LAN ports and one USB port offer a wide range of options: Not only can you use these to easily integrate all your devices, they also mean you can integrate your printer into your home network and provide USB storage. This means you can access your videos, pictures and music whenever and wherever you like.

Compact and powerful

The ideal addition: The FRITZ!Repeater 1200 AX gives your network a boost and supports Wi-Fi 6. The intelligent FRITZ! Mesh ensures convenient setup and top Wi-Fi reception at all times.

Connect and go

Setting up the FRITZ!Repeater 1200 AX is super easy: plug it in, press the button and the FRITZ!Repeater and FRITZ!Box connect automatically. The FRITZ!Repeater adopts the Wi-Fi settings and is ready for use immediately. Alternatively, the FRITZ!Repeater can be connected with the FRITZ!Box via a LAN cable. This means even longer distances can be bridged effortlessly.

With its gigabit LAN port, the repeater can integrate network-enabled devices without Wi-Fi into the home network e.g. a smart TV or a printer.

FRITZ!OS - a fully loaded operating system

FRITZ!OS, the operating system for your FRITZ!Box and FRITZ!Repeater, is updated with new features on a regular basis. With the FRITZ!Apps you can also use your smartphone to access your data from anywhere, make landline calls in your home network, or control your Smart Home. Alongside FRITZ! Smart Home devices, the FRITZ!Box 7530 AX also supports a wide range of devices with HAN FUN and DECT ULE wireless technology from other manufacturers. And of course, all updates and apps for FRITZ! products are free of charge.

FRITZ!Box, for safety's sake

You're always on the safe side with FRITZ!Box! The comprehensive security concept protects your communications. It undergoes constant testing and development. Thanks to the free updates, you can always rest assured.
