Aprašymas

This high-quality power cord is a reliable and efficient solution for connecting equipment that requires high-temperature resistance and dependable power delivery. Featuring an IEC C14 plug on one end and an IEC C15 connector on the other, it is specifically designed for use with devices such as network switches, servers, and other IT or industrial equipment that operate in high-heat environments. Supporting up to 250V and 10A, this power cord is perfect for professional and industrial applications.

Constructed with premium materials, this cord ensures excellent durability and long-lasting performance. The heavy-duty copper conductors provide superior conductivity and efficient power transmission, minimizing energy loss while ensuring stable and consistent performance. The connectors are precision-molded for a secure and reliable fit, reducing the risk of accidental disconnections.
