Pagrindinės savybės

- ✓ Automatic minute taking
- ✓ Instant meeting summary
- ✓ Automated meeting action points
- ✓ 360° recording with high-quality 6-array microphone

Aprašymas

The Philips SmartMeeting Conference Microphone and Sembly Meeting Assistant take part in meetings with you as your dedicated note takers. The microphone's smart speech-enhancing and noise-filtering technology ensures clear and natural sounding calls. Sembly creates automatic transcripts, summaries and highlights action points and to dos for you. The solution helps you find out who said what easily and quickly after every meeting, even if you could not attend.

Automatic minute taking to help you focus on your meetings

Sembly will join any call it is invited to, introduce itself, and record the call. It can even attend a call when you're not there! You can focus on the conversation and not get distracted by having to take notes.

Instant meeting summary so you know the outcome of every meeting at one glance

Shortly after a call, the transcript of the conversation will appear in the Sembly app, which you can read, search, and share as needed.

Automated meeting action points for saving time

Sembly's smart AI tracks actions, issues, requirements and more to help you zoom-in on key items, in case you missed something during your call or just want to confirm specific details from the discussion.

Voice ID for clear speaker separation

Sembly offers advanced features such as the revolutionary VoiceID algorithm, which identify speakers in meetings and is able to separate the transcripts per person to see who said what. Each speaker is assigned their own virtual "voice fingerprint".

Sembly works with all major platforms such as Microsoft Teams, Google Meet and Zoom

Sembly connects with all major platforms, such as Microsoft Teams, Google Meet and Zoom. Sembly automatically syncs with your Google or Outlook calendar. You can also invite Sembly to an unscheduled call at any time.

360° recording with high-quality 6-array microphone for clear meeting recordings

The microphone comes with a noise-cancelling 6-array microphone to capture a radius of 6 meters and up to 12 speakers around the table. The smart speech-enhancing and noise-filtering technology ensures clear and natural sounding calls.

High-quality loudspeaker for understanding voices clearly

SmartMeeting solution comes with a high-quality loudspeaker which makes sure you can hear and understand every word which has been said by others in the meeting.

Plug-and play connectivity via Bluetooth or USB for easy setup

Start your calls instantly thanks to simple plug-and-play connectivity to your laptop or smartphone, using either USB or Bluetooth.

Powerful long-lasting battery for up to 10 hours of use

The high-capacity lithium battery makes sure your are always ready for your next conference call, lasting for up to 10 hours.

Techninė specifikacija
