Aprašymas

Ultra Slim TV Floor Standing Mount – for a snug fit on a wall and behind TV consoles to get the benefits of a wall mount without drilling holes
The Manhattan Ultra Slim TV Floor Standing Mount gives you the flexibility to mount your display everywhere. Let your movies move with you - from your living room to your patio in the summer and back to your fireplace in the winter. As opposed to regular wall mounts or tabletop stands, this one even allows for placement in a corner – maximum versatility for apartments, conference rooms and more.

Sleek style and strength

A high-quality aluminum-steel construction universally fits 32" to 70" TVs with VESA mount patterns up to 400x400 and is strength-tested to support loads up to 40 kg (88 lbs.). Optimize your view with swivel and height adjustment options. Its sleek design allows it to fit snugly on a wall, supported by a base that is angled so the column can fit above baseboards, allowing you to move the floor stand even closer to the wall.

Clever cable management

To organize your TV’s HDMI, Ethernet and power cables, this mount lets you run them through the clip on the back. This smart cable management helps create a cleaner look and reduces potential trip hazards.

Foam padding on back and bottom

The bottom of the base is lined with protective foam pads to prevent scratches on your floor and dampen any sound when you move it to another room. The same material on the back protects your wall.

Advanced safety option with pets and kids in mind

If you don’t move the stand constantly but have kids or pets running around, you can make it tip-proof with the included safety kit that lets you fix the stand to the wall.

Techninė specifikacija

Mounting
