Aprašymas

If you want to place your laptop on a monitor arm then the R-Go Morelia Laptop Holder is very suitable. You simply mount the platform to the VESA of your monitor arm using 4 screws. You then place your laptop on the platform and secure it with the supplied hooks. This laptop holder is ideal to combine with an R-Go Caparo or Zepher monitor arm! Our monitor arms are designed to be CO2 neutral. The CO2 emissions released when manufacturing a monitor arm are compensated by planting trees. The monitor arms are designed in the Netherlands and use patented SMART functions, such as a rotation stop for each moving part. This SMART STOP prevents the monitor arm from colliding with an (acoustic) wall.
