Aprašymas

Discover the reliable and efficient power solution for your UPS and power devices with the Qoltec lithium iron phosphate battery. This high-capacity battery, featuring 9 Ah and 115.2 Wh, is designed to provide a stable and long-lasting power supply. With its advanced lithium iron phosphate technology, it ensures superior performance and durability.

The battery is engineered to operate across a broad temperature range, from -15°C to 60°C, making it adaptable to various environmental conditions. Safety is paramount, and this product includes a Battery Management System (BMS) and overcharge protection, ensuring your devices are powered safely and efficiently. Additionally, its compliance with IP65 standards offers peace of mind by protecting against dust and water ingress. Choose Qoltec for a dependable power solution that keeps your devices running smoothly.
